

LEADERSHIP SUCCESS SERIES

How to be a R.E.A.L. Success

Introduction

On the surface, achieving success seems like a simple recipe, yet lasting success requires awareness, study, practice and mentoring before it can be accomplished.

Who Should Attend

Aspiring business owners, coaches, leaders, mentors and supervisors.

What You Will Learn

- Understand relational rules and significantly improve relationship skills
- Learn to add value to others to help them reach their full potential
- Recognize, equip and build on the leadership potential of others and apply teamwork laws
- Develop positive and winning attitudes to overcome difficult situations
- Emulate attributes of success by other leaders
- Lead others from the heart to complete the missing puzzle of success

What We Offer

- Workshops (Full day / 2 Days)
- Seminars (Half / Full day)
- Lunch & Learn (1 hour)

Course Outline

To become a REAL SUCCESS, it is imperative to RELATE to others better as you understand relational rules; EQUIP others with the proper skill sets; improve your ATTITUDE through daily practices; and LEAD others successfully to where you have gone and beyond.

Participants will immerse themselves in the four elements of real success.

1. Relationship

Until your people skills are strong, your influence will be weak. Only very tiny visions can be accomplished alone; to achieve anything worthwhile involves working with a team. We must learn to connect with others in mutually productive ways.

- Learn to accept yourself and your abilities
- Make instant connection and build trust with others
- Develop skills to be a better listener
- Encourage others to be the best versions of themselves
- Serve and lead at the same time by valuing people more than the position.

2. Equip

Trying to do everything on your own leads to frustration and limitation. If you want to reach your potential and build something of lasting value, then you need to become a team player.

- Understand the need to equip others
- Adopt a team mindset that puts others before self
- Choose whom to “equip”
- Identify potential leaders
- Equip potential leaders to inspire others
- Help others to fulfil potential

Course Outline

3. Attitude

In a team setting, attitude always plays a role. Rotten attitudes can wreck a team, whereas positive attitudes can make even a team with average talent accomplish amazing things.

- Identify what shapes a person's attitude?
- What have you learnt about your personality type and how does it affect others
- Learn how your kind of attitude is having an impact on your team mates / followers?
- Understand how an obstacle can enhance an attitude
- Dealing with failures, positively

4. Leadership

Personal success without leadership competence brings only limited effectiveness. A person's impact is only a fraction of what it could be with good leadership. The higher you want to climb, the more you need leadership. What you ultimately accomplish depends upon your ability to influence others.

- Identify needs and growth areas as a leader
- Steps to become more self disciplined
- Purposefully prioritize life
- Develop trust and effectively cast vision
- Learn to influence others
- Extending influence and making leadership last
